ICECOOL

OUR PRODUCTS USAGE PURPOSE

✓ GRILLED FOOD

The oven provides a uniform heating environment, allowing food to be heated evenly, resulting in a golden and crispy outer layer and a tender and smooth interior

✓ BAKE CAKE

By adjusting the temperature and time of the oven, pastries and dough can be baked to perfection, resulting in soft and sweet baked goods.

✓ DRYING FOOD

Oven can also be used to dry food such as fruit slices, vegetable slices, nuts, etc. Putting the cut food in the oven and drying it at an appropriate temperature can extend its shelf life and make healthy snacks.

✓ THAW

Oven can also be used to dry food such as fruit slices, vegetable slices, nuts, etc. Putting the cut food in the oven and drying it at an appropriate temperature can extend its shelf life and make healthy snacks.

✓ HEAT PRESERVATION

Insulated food. When food needs some time before it can be served it can be placed in a preheated oven for insulation to maintain the warmth and taste of the food.

✓ GRILLED AND BOILED FOOD

Roast and cook food, such as whole turkey, duck, or chicken legs. Simultaneously utilizing the baking function to make the surface of the food crispy.
